The New Hawa Concepta III

More aesthetics

With the new Hawa Concepta III, work surfaces and entire kitchens can be reduced to an elegant, flush front with an even gap pattern. If you prefer a puristic appearance, you can even dispense with handles.

More comfort

The pioneering, patented system guarantees an even, extremely smooth movement with its sophisticated operating assistance.

More efficiency

The high degree of pre-assembly makes installation easier, and the logically positioned, easily accessible adjusting points simplify adjustment, and the entire system therefore supports increased productivity.

Features and Benefits

> For door heights from 1200–2700mm
> For door widths from 440–750mm
> For door weights from 6–35kg
> For door thickness 18–26mm
> Pull application for doors operated with handles
> Push-to-open application for doors without handles
> Fitting sets are handed for left-hand and right-hand installation
